WORK EXPERIENCE

Hash Analytic

Data Analytic Internship (Remote)
- I worked with python and some of its libraries (Numpy, Pandas, Matplotlib, Seaborn, Scipy) to run analysis on datasets and also to solve real life problems using machine leaning.
- I worked with softwares and tools such as Jupyter Notebook, Microsoft Excel and Tableau to do analysis and also to make visualizations.
- I worked on a project that solves a company's attrition problem using previous and present data to predict a possible future problem using machine learning.

Putme Academy

Tutor
- Tutored prospective university students

CERTIFICATIONS

- **Modern JavaScript (from Novice to Ninja level)**
- **Certificate of Graduating from The Ultimate Redux Course** – Code with Mosh coding school
- **Hash Analytic Global Data Internship Certificate and Recommendation:** Learning tools such as Data Analytics and Visualization with Python, Tableau, and Google Analytics
- **Google Analytics:** Google analytics for Beginners
